But a 5 cent cake of Ivory Soap weighs three times as much, and is better soap.

Why better? Because it is purer; because it contains no "free" alkali; because it floats.

Mrs. T. M. Ellwood was this morning in receipt of a telephone message from her husband T. M. Ellwood, who was called to Trinidad yesterday on account of the serious illness of Harry Treague, stating that while Mr. Treague was resting easier and some better he is yet in a critical condition. Bright's disease having set in. The many friends of Mr. Treague in this city are anxiously awaiting the news that there is some hopes of his entire recovery.

The members of the E. Romero hose company were aroused from their slumbers about 2 o'clock this morning by the still alarm going off. The men made a hurried hitch and were ready to leave the hose house when it was discovered that the "hello girl" in the central office had accidentally touched the wrong button. The men repaired to their various couches as soon as possible and were again lost in slumber in a very short time.

NO DANGER FROM THE  
USE OF MILK BOTTLES

It is generally known and always has been understood that J. P. Geyer does and always has run a sanitary dairy, but he wishes to impress upon the minds of his customers that there is absolutely no danger of contracting any disease by the use of his bottles. Every bottle is thoroughly sterilized with steam by the use of a sterilizing oven, manufactured for that purpose. All milk bottles are placed in this air tight oven, steam turned on and they are heated to the boiling point temperature for one half hour or more. Geyer also keeps a tested dairy herd.

The above statement of facts are correct.

J. P. GEYER.

Subscribed and sworn to before me this 13th day of November, A. D. 1909.
